Subject: Microsoft Settlement

As a concerned citizen I wish to express my frustration with the government's continuous pursuit of the Anti-Trust Case against Microsoft. I believe that the case should be settled and finalized. Too much money has already been spent trying this case. I would have rather seen the money spent on education.

It is my belief that Microsoft has enabled the general public to be able to use Personal Computers and has enhanced the industry with its innovation.

Stop spending our tax dollars on this case and spend it instead on bettering our education system.

Thank you for reading my comments.
